1968 INDEX OF ARTICLES PUBLISHED IN MATERIALS ENGINEERING

INDEX OF FEATURE ARTICLES

ALUMINUM AND ITS ALLOYS

Aluminum Screw Machine Parts Reduce Product Cost--Feb, p 27
Guide to Selecting Aluminum Casting Alloys--May, p 41
What's New In Light Metals--Mar, p 34

BERYLLIUM AND ITS ALLOYS

Beryllium Deters Corrosion--Some Do's and Don'ts--July, p 33
What's New In Light Metals--Mar, p 34

CARBON, GRAPHITE

High Modulus Carbon Fiber: New Entry in FRP Race--Feb, p 46
Screen Thermal Insulation for 1000 F Service--Fast--Jan, p 48

CASTINGS

Ferrous Die Castings: Close Tolerances & High Strength--Feb, p 24
Guide to Selecting Aluminum Casting Alloys--May, p 41

CERAMICS, GLASS

Ceramic Armor Stops Bullets, Lowers Weight--Sept, p 42
Deep Sea Hull Materials--The Quest Goes On--Apr, p 28
Glass, Glass-Ceramics: Versatile Materials--Dec, p 38
Improved Cemented Carbides Reduce Wear and Corrosion--Aug, p 30
Screen Thermal Insulation for 1000 F. Service--Fast--Jan, p 48
"Soft" Ferrites Solve Magnetic Core Problems--Apr, p 55
10 New Ways to Fabricate Ceramic Parts--May, p 72
Titanium Carbide (Mo) Cermets Resist Heat and Wear--May, p 37

COATINGS, FINISHES

Finishes Keep F-111 Corrosion--Free--Mar, p 82
Gold Electroplates Shine in Tough Jobs--Oct, p 64
Intumescent Coatings Make Flammable Materials Safer--July, p 86
Mechanical Finishes Brighten, Decorate Metal Surfaces--Sept, p 64
"No-Gloss" Metal Finishes Tame Sun Glare--Jan, p 74
Pick Right Organic Coating to Insulate Printed Circuits--June, p 76
Slash Costs, Save Time With Pre-Anodized Aluminum--May, p 84
Stop Failures of Tin-Plated Bolts--Apr, p 89
Vacuum Deposited Films Up Appearance, Performance--Aug, p 77
What's New in Organic Industrial Coatings--Dec, p 60

COMPOSITES (EXCEPT REINFORCED PLASTICS)

Aligned Eutectics: Tomorrow's Composites?--Sept, p 58
Cellular Membrane Cores Stiffen Sandwich Panels--Mar, p 72
Deep Sea Hull Materials--The Quest Goes On--Apr, p 28
Five Ways to Fabricate Metal Matrix Composite Parts--July, p 58
Jumping The Heat Hurdle With Metal-Metal Composites--Oct, p 50
Lamellar Composites Halt Crack Propagation--Jan, p 56
Pressure-Sensitive Tapes for High Performance--Feb, p 52
Whiskerizing Triples Composite Shear Strength--May, p 62

COPPER AND ITS ALLOYS

Nickel, Copper Boost Properties of P/M Steels--Mar, p 32

CORROSION RESISTANT PROPERTIES AND MATERIALS

Beryllium Deters Corrosion--Some Do's and Don'ts--July, p 33
Finishes Keep F-111 Corrosion Free--Mar, p 82
Improved Cemented Carbides Resist Wear and Corrosion--Aug, p 30
Pick Right Alloy to Resist Hot Corrosion--Sept, p 30
Stress Corrosion: Saturn V Fights Back--June, p 34

ELECTRICAL AND ELECTRONIC PROPERTIES AND MATERIALS

Pick Right Organic Coating to Insulate Printed Circuits--June, p 76
"Soft" Ferrites Solve Magnetic Core Problems--Apr, p 54

FABRICS, FIBERS, FELTS

High Modulus Carbon Fiber: New Entry in FRP Race--Feb, p 46
Screen Thermal Insulation for 1000 F Service--Fast--Jan, p 48

FORMING

Chemical Milling Handles Difficult Metal Removal Jobs--Aug, p 62
Cold Form Thermoplastics to Shape Thick Parts Fast--Apr, p 74
Five Ways to Fabricate Metal Matrix Composite Parts--July, p 58
47 Ways to Shape and Form Materials--Sept, p 50
10 New Ways to Fabricate Ceramic Parts--May, p 72

GENERAL

Challenge Of The Materials Explosion--Nov, p 33
Perspective. The Making Of The Materials Age:
History, Science and Engineering Interact, p 36
Concepts. Modern Materials Concepts Make Structure Key to Progress, p 38
Engineering. Materials Engineering Groups Gain in Numbers, Responsibilities, p 43
Producers. Competitive Challenge Gives Rise to Multi-Materials Producers, p 46
Research. Key to Materials Of Tomorrow: Effective Research and Development, p 48
Societies. Materials Societies, Associations Gain Membership, Deepen
Education Aids, p 54

Education. More Schools Offer Materials Courses But Science.
Still Leads Technology, p 61
Deep Sea Hull Materials--The Quest Goes On--Apr, p 28
Lessons From Spacecraft: Use Materials in New Ways--July, p 24
Metals: Key to Battery-Powered Auto--Oct, p 34
New Materials & Product Review--Jan, p 84
12th Annual Materials Application Awards--Apr, p 94

HIGH TEMPERATURE PROPERTIES AND MATERIALS

Intumescent Coatings Make Flammable Materials Safer--July, p 86
Jumping The Heat Hurdle With Metal-Metal Composites--Oct, p 50
Screen Thermal Insulation for 1000 F Service--Fast--Jan, p 48
Titanium Carbide (Mo) Cermets Resist Heat and Wear--May, p 37

IRONS

Ferrous Die Castings: Close Tolerances & High Strength--Feb, p 24

JOINING AND FASTENING

Adhesive Bonding Pb or Zn Opens New Uses, Cuts Costs--Jan, p 62
Electron Beam Welding: What It Can--and Can't--Do--June, p 66
Explosive Welding Bonds Metals, Large Areas--July, p 70
More Ways to Join Dissimilar Metals--Mar, p 60
Pressure-Sensitive Tapes For High Performances--Feb, p 52
Stop Failures of Tin-Plated Bolts--Apr, p 89
Ultrasonics Boost Strength, Speed Cure of Adhesives--Apr, p 76
What's New In Adhesives and Adhesive Bonding--Aug, p 40

MACHINING, METAL REMOVAL

Aluminum Screw Machine Parts Reduce Product Cost--Feb, p 27

MAGNESIUM AND ITS ALLOYS

What's New In Light Metals--Mar, p 34

MATERIALS ENGINEERS AT WORK

Bruce Hannay of Bell Telephone Labs.--June, p 26
Century-Old Company Takes a Fresh Look At Materials--Aug, p 24
Chrysler's Garwood--Dec, p 24
Design Vs Materials Engineering--Oct, p 28
Keep'em Rolling Is Goal of Big Truck Maker--Sept, p 24
Scientists Predict New "Materials Age"--July, p 20
Sperry Gyroscope's Joe Preisler--May, p 26

MOLDING(S)

Rotational Molding Today: New Materials, Equipment--Jan, p 64

NICKEL AND ITS ALLOYS

Electroflux Remelted Alloys Improve Properties, Trim Costs--Jan, p 33
New Metal Foams Are Highly Porous and Uniform--Apr, p 44
Nickel, Copper Boost Properties of P/M Steels--Feb, p 32

NONFERROUS METALS (NOT ELSEWHERE CLASSIFIED)

Adhesive Bonding Pb or Zn Opens New Uses, Cuts Costs--Jan, p 62
Electroflux Remelted Alloys Improve Properties, Trim Costs--Jan, p 33
Lessons from Spacecraft: Use Materials In New Ways--July, p 24
Low Melting Bismuth Alloys: Low Cost Problem Solvers--Dec, p 30
Metals: Key to Battery-Powered Auto--Oct, p 34

NONMETALLIC MATERIALS (NOT ELSEWHERE CLASSIFIED)

Lessons from Spacecraft: Use Materials in New Ways--July, p 24
Screen Thermal Insulation for 1000 F Service--Fast--Jan, p 48

PAPER

Screen Thermal Insulation for 1000 F Service--Fast--Jan, p 48

PLASTICS, GENERAL

Pick The Right Thermoplastic for Low Temperature--May, p 52
Plastics In Autos: New Materials, Processes--Mar, p 48
Pressure-Sensitive Tapes for High Performance--Feb, p 52
Propylene-Modified PVC Lowers Part Cost--July, p 48
Rotational Molding Today: New Materials, Equipment--Jan, p 64
Straight-Chain Plasticizers Give PVC Stability--June, p 51
Stretch A-Plant Parts Life With Plastics, Elastomers--Jan, p 46
Tailor Plastic Foams for Microwave Lenses--Mar, p 58

PLASTICS, REINFORCED

Boost Composite Shear Strength With 3-D Reinforcement--Apr, p 62
Cold Form Thermoplastics To Shape Thick Parts Fast--Apr, p 74
Deep Sea Hull Materials--The Quest Goes On--Apr, p 28
High Modulus Carbon Fiber: New Entry in FRP Race--Feb, p 46
Pressure-Sensitive Tapes for High Performance--Feb, p 52
What's New In Reinforced Plastics--Feb, p 36

POWDER METALLURGY

How Alloying Boosts Properties of P/M Steels--Dec, p 54
Nickel, Copper Boost Properties of P/M Steels--Mar, p 32

RUBBER

Blended Elastomers Resist Elements--Mar, p 50
Energy-Absorbing Elastomers Soak Up Shock, Vibration--June, p 48
Search Is on For Better Elastomers--Oct, p 44
Stretch A-Plant Parts Life With Plastics, Elastomers--Jan, p 46

STAINLESS AND HEAT RESISTANT STEELS

Compare PH Stainless Steels for Optimum Properties--May, p 34
Electroflux Remelted Alloys Improve Properties, Trim Costs--Jan, p 33
Ferrous Die Castings: Close Tolerances & High Strength--Feb, p 24

STEELS

Deep Sea Hull Materials--The Quest Goes On--Apr, p 28
Electroflux Remelted Alloys Improve Properties, Trim Costs--Jan, p 33
Ferrous Die Castings: Close Tolerances & High Strength--Feb, p 24
How Alloying Boosts Properties of P/M Steels--Dec, p 54
Nickel, Copper Boost Properties of P/M Steels--Mar, p 32

TESTING AND INSPECTION

Four Reasons Why Metal Parts Fail--Dec, p 68
High Speed Photography Freezes Materials In Motion--Oct, p 74
How to Test, Evaluate Thermal Fatigue Resistance--Sept, p 72
New Developments In Materials Testing Equipment--June, p 91
Physical Properties and Tests--A to Z--June, p 82
Simulated Service Tests: Are They For Real?--Feb, p 62

TITANIUM AND ITS ALLOYS

Deep Sea Hull Materials--The Quest Goes On--Apr, p 28
What's New In Light Metals--Mar, p 34

ZINC AND ITS ALLOYS

Adhesive Bonding Pb or Zn Opens New Uses, Cuts Costs--Jan, p 62

INDEX OF AUTHORS

Adler, A., How Alloying Boosts Properties of P/M Steels--Dec, p 54
Nickel, Copper Boost Properties of P/M Steels--Mar, p 32

Alexander, J. A., Five Ways to Fabricate Metal Matrix Composite Parts--July, p 58

Anderson, D. C., and Arlidge, D.B., Vacuum Deposited Films Up Appearance, Performance--Aug, p 77

Baseman, A., Plastics In Autos: New Materials, Processes--Mar, p 48
What's New In Reinforced Plastics--Feb, p 36
What's New In Adhesives and Adhesive Bonding--Aug, p 40

Bicknell, J.L., Stop Failures of Tin-Plated Bolts--Apr, p 88

Brenner, W., and Vermes, R., Rotational Molding Today: New Materials, Equipment--Jan, p 64

Busche, M.G., Boost Composite Shear Strength With 3-D Reinforcement--Apr, p 62
Cellular Membrane Cores Stiffen Sandwich Panels--Mar, p 72
Jumping The Heat Hurdle With Metal-Metal Composites--Oct, p 50
High Modulus Carbon Fiber: New Entry In FRP Race--Feb, p 46

Carlson, R. J., Linse, V.D., and Wittman, R.H., Explosive Welding Bonds Metals, Large Areas--July, p 70

Clauser, H.R., Challenge Of The Materials Explosion--Nov, pp 36,38

Coffman, P.M., Cold Form Thermoplastics To Shape Thick Parts Fast--Apr, p 74

Cohen, L. A., Power, W.H., and Fabel, D.A., New Metal Foams Are Highly Porous and Uniform--Apr, p 45

Darnell, R.S., Low Melting Bismuth Alloys Low Cost Problem Solvers--Dec, p 30

De Vries, Ralph P., Electroflux Remelted Alloys Improve Properties, Trim Costs--Jan, p 33

Emrich, B.R., and Brown, S.D., 10 New Ways to Fabricate Ceramic Parts--May, p 72

Fabian, R. J., Bruce Hannay of Bell Telephone Labs.--June, p 26
Century-Old Company Takes Fresh Look At Materials--Aug, p 24
Challenge of The Materials Explosion--Nov, p 48
Deep Sea Hull Materials--The Quest Goes On--Apr, p 28
Sperry Gyroscope's Joe Preisler--May, p 26

Flanders, S., Energy-Absorbing Elastomers Soak Up Shock, Vibration--June, p 48

Gatzek, Leo E., More Ways to Join Dissimilar Metals--Mar, p 60

Hannon, F.S. and Abbott, K.H., Ceramic Armor Stops Bullets, Lowers Weight--Sept, p42

Hauck, J. E., Blended Elastomers Resist Elements--Mar, p 50

Hauser, R.L., and Fisher, R.E., Ultrasonics Boost Strength, Speed Cure of Adhesives--Apr, p 77

Hawkins, R., Pick Right Organic Coating to Insulate Printed Circuits--June, p 76

Howes, M.A.H., How to Test, Evaluate Thermal Fatigue Resistance--Sept, p 72

Hurd, D.T., and Barto, R.L., Ferrous Die Castings: Close Tolerance & High Strength--Feb, p 24

King, J.R., Electron Beam Welding: What It Can--and Can't--Do, June, p 66

Krashes, D., Four Reasons Why Metal Parts Fail--Dec, p 68

Layne, A.A. Challenge of The Materials Explosion--Nov, pp 43,46
Design vs Materials Engineering--Oct, p 28

Lewis, F.A., Aluminum Screw Machine Parts Reduce Product Cost--Feb, p 27

Low, A.J., and Bruns, L.E., Stretch A-Plant Parts Life with Plastics, Elastomers--Jan, p 46

Micillo, C., and Staebler, C.J., Chemical Milling Handles Difficult Metal Removal Jobs--Aug, p 62

Milewski, J.V., Shaver, R.G., and Withers, J.C., Whiskerizing Triples Composite Shear Strength--May, p 62

Miller, P.D., and Boyd, W.K., Beryllium Deters Corrosion--Some Do's and Don'ts--July, p 33

Mock, J.A., Challenge of The Materials Explosion--Nov, p 61
Gold Electroplates Shine in Tough Jobs--Oct, p 64
High Speed Photography Freezes Materials in Motion--Oct, p 74
Mechanical Finishes Brighten, Decorate Metal Surfaces--Sept, p 64
Intumescent Coatings Make Flammable Materials Safer--July, p 87
"No-Gloss" Metal Finishes Tame Sun Glare--Jan, p 74
New Developments in Materials Testing Equipment--June, p 91
Physical Properties and Tests--A to Z--June, p 82
Simulated Service Tests: Are They for Real?--Feb, p 62
Slash Costs, Save Time With Pre-Anodized Aluminum--May, p 84
What's New In Organic Industrial Coatings--Dec, p 60
